CURRENTLY LEARNING: REACT

WEBSITE PORTFOLIO <http://phamj117.netlify.com> **GITHUB** <https://github.com/phamj117>

EXPERIENCE:

Web Development Program & Self-Taught | Career Foundry *April 2017 – Present*

- ❑ Knowledge of JavaScript (data structures and algorithmic techniques) & ES6 classes / features
- ❑ Knowledge of Object-Oriented Programming concepts (encapsulation, abstraction, inheritance, polymorphism, composition/mixins)
- ❑ Dynamically load data from a JSON file using AJAX & import data from an external JSON file using an API key.
- ❑ JavaScript DOM manipulation and JavaScript event to get the data and render image in UI.
- ❑ Used object-oriented JavaScript to design models and controllers for different functionality within a quiz application.
- ❑ Node Package Manager to install & configure Node SASS. Utilized SASS features (mixins, variable nesting, media queries).
- ❑ Exposure to ES6 tools: Babel and Webpack
- ❑ Used HTML5, CSS3 (transitions/ grid templates/ Flexbox), SASS, and JavaScript to develop a responsive website portfolio.
- ❑ Proficient with Visual Studio Code
- ❑ Exposure to Angular 6 framework (initializing components, nesting components, routing to navigate between various views, implementation of data binding, interpolation, pipes, lifecycle hooks, and directives)

Corporate Accounts Sales Support | SYSPRO Impact Software *Sept 2016 – April 2017*

- ❑ Managed data for prospective and current clients in CRM, ensuring all communications are documents and information is accurate detailed notes.

- ❑ Prepared forecast of weekly & quarterly sales revenues reports and managed pipeline opportunities on sales deliverables to Corporate Accounts Manager. Prepared software & hardware estimates and proposals for customers.
- ❑ Managed Corporate Account Executive's calendar and scheduled calls with customers, implementation and development team.

Project Coordinator | Allstates Mailing Services *June 2003 – July 2016*

- ❑ Perform procurement of new business and support sales initiatives by identifying additional opportunities within assigned accounts.
- ❑ Serve as a direct liaison for customers by providing service support and guidance in accordance to USPS regulations and standards
- ❑ Develop weekly/monthly forecast of work orders and coordinate weekly kick-off meetings to ensure team members are current with project schedule.
- ❑ Facilitate quality assurance procedures (i.e., conduct mailing list audits and verify for accuracy by examining post and pre-data inputs, proof reviews, mail piece inspections of variables in appropriate fields)
